

STONY PLAIN SUN.

VOLUME NINE.

STONY PLAIN. ALBERTA THURSDAY, JULY 4, 1929

Whole Number 468

Edmonton Beach.

Following are the prize winners at the Schools contest on Monday: The Barrie Shield was won by Lucknow school; Blueberry 2nd; Rosenthal 3d.

Boys Wheelbarrow—S Spicer & E Enders; Blueberry; J Kulak and A Kotscherofsky, Rosenthal.

Ditto, 9 to 12—C Shaul and F Carmichael, Rosenthal; E Bauer & O Enders, Lucknow; O Schlutz, C Hoffman, Comet.

Boys Sack Race—G Perrault, Willingdon; C Enders, Lucknow; D Robertson, Blueberry.

Ditto, 12 and under—E Bauer, Lucknow; C Baron, Blueberry; O Miller, Blueberry.

Ditto, 9 and under—O Enders, Lucknow; D Savard, Willingdon; E Bauer, Lucknow.

Boys Relay Race—1 Lucknow, 2 Willingdon; 3 Warden.

Girls Relay Race—1 Rosenthal; 2 Blueberry; 3 Lucknow.

Girls Peanut Race—C Bauer, Lucknow; A Tyralo, Blueberry; Kulak, Rosenthal.

Boys Peanut Race—N Kreye, Lucknow; E Bauer, Lucknow; J Kulak, Rosenthal.

Boys 3-legged Race—1 Lucknow 2 Cottage Lake; 3 Lucknow

Girls 3-legged Race—1 Rosenthal; 2 Warden, 3 Blueberry.

Boys 15 yards Dash, 12 to 15—G Perrault, Willingdon; B Zutz, Comet; R Fryer, Lucknow.

Ditto, 9 to 12—O Miller, Blueberry; E Bauer, Lucknow; D Robertson, Blueberry.

Boys 50 yards, under 9—O Zutz, Comet; E Kornberger, Blueberry; G Wandel, Blueberry.

Girls 50 yards, 12 to 15—Lilly Kulak, Rosenthal; B Bauer, Lucknow; G Miller, Blueberry.

Ditto, 9 to 12—A Altheim, Cottage Lake; E Zutz, Comet; B Schwalli, White Whale.

Ditto, under 9—H Pasenko, E Pasenko, Willingdon; E Enders, Lucknow.

Lady Teachers' Race—Mrs S E Butford, H L Wibrey, Warden; M Holland, Rosenthal.

100 yard Dash—J Fuhr, Blueberry; E Lutz, Willingdon; J Kreye, Lucknow.

Swimming, Boys—T Ashmead, Blueberry; A Gosselt, Warden; N Kreye, Lucknow.

Swimming, Girls—M Powell, Warden; May Jaune, Blueberry.

Total Points Scored by Schools: Lucknow 139; Blueberry 116; Rosenthal 58; Willingdon 58; Warden 50; Comet 28; Cottage Lake 21; White Whale 4.

Points—1st 10, 2d 7, 3rd 4. Individual High Scorers, Boys—1st E Bauer; 2d Gordon Perrault; 3d E Kornberger.

Girls—1st Lilly Kulak; 2d Annie Tyralo.

Supervisor—G F Hustler, principal Bennett School, Edmonton.

Personal Mention.

Mr J H Lory returned on Saturday from a month's vacation at Victoria, B.C.

Messrs Art Mundt and G Davishave returned from their motor trip down East.

Mrs Mountain and Miss Mountain, Edmonton, were week-end visitors with Mrs J F Clarke.

Mrs A Nestor (nee Emilia Geistlinger) of Biggar, Sask., is visiting friends here this week.

Mr Roy Alton is on a business trip to Vancouver at present.

Wm Stafford has resumed his duties as mechanic at the Sommerfeld and Mayer garage.

Mr Art Ackerman has accepted a position in the Red Deer garage.

The successful students at Edmonton Normal from this district are: Miss Catherine Alt, Miss Queenie Donaldson, Miss V Manarey; Mr Gordon Willie.

Banker Wilfred Story is spending his holidays at his home at Empress, Alta.

G J Bryan spent the week-end with friends at Calgary.

Henry Treit arrived in Stony last week from Spokane.

Mr Alfred Miller, son of Mr and Mrs Henry Miller, who has been a student at Concordia College, Edmonton, for the past seven years received his diploma in Theology at the College's recent graduation exercises. He is at his home in Stony Plain at present. In the fall he will proceed to St Louis, to enter the Concordia Theological Seminary to complete his studies.

Miss J Dweeke and Miss Esther Wolfe; Messrs Herb Wolfe (Gramm) and Phil D Fuhr, Spruce Grove, started Saturday on a motor trip to Spokane, Portland and Tacoma.

Among the Rifle Club's shooters at the provincial contest at Calgary this week are: L Zilliox, O Hoffman and M McKinlay.

Monday next, July 6, is the date set for the sale of lands in Stony for areas of taxes.

Farmers in Court

On Tuesday and Wednesday of last week a case of interest to residents of Stony Plain and Carvel districts was tried in Edmonton, before his Hon or Judge Crawford, in the District court. The action was between two Carvel farmers upon a mortgage which the plaintiff Lutz Pawlyk alleged had not been signed by him but by the defendant, John Pawlyk. The action was for the recovery of the money. His honor gave judgment for the plaintiff for \$645.00 and cost. Mr G J Bryan of Stony Plain appeared for plaintiff, while Mr Basarah, of Cormack & Basarah, represented defendant.

Special Rates on all Railways in Alberta and Saskatchewan. P. W. ABBOTT, Managing Director. B. L. HOLMES, Secretary.

Noxious Weeds--

Are unsightly in fields and gardens and along roadsides.

Rob the soil of valuable plant food.

Occupy space which should produce grain.

Reduce the grade of the threshed crop.

Cost money to thresh, haul and ship to market.

Entail heavy losses in dockage.

The first week in July has been designated as

WEED WEEK,

and a special campaign urging the eradication and control of noxious weeds will be conducted.

Watch for articles in the press and for announcements of meetings and radio addresses.

Published by a committee representing the—

Alberta Seed Growers' Association,

Alberta Advisory Weed Board,

Alberta Department of Agriculture.

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The latest remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. So learn—now—why this method is superior. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Spare the Wild Flowers

Possibly nothing is so much a part of our lives from the cradle to the grave as flowers. Set the infant down amongst wild flowers, and immediately he wants to eat them all. Then the wee tottler arrives with something for "Mom." The chubby little fist will only contain a badly crushed dandelion, but in his eyes it is very precious.

We all remember the schoolroom the morning after the circus. No one had done any homework, so our teacher's desk looked like a condensed flower show. The dear lady (may her grave be covered with violets!) tried to look very severe and pretended she could not find her strap, till Fatty puffed in ten minutes late with a bouquet of seven enormous sunflowers for "teacher." Then she had to laugh, and we roared. She stood the sunflowers in the corner where she had so often stood Fatty and gave us all double homework, which we all carefully prepared. Next comes the careful selection of flowers for the "only girl" and the sight of the obnoxious bunch the other fellow brought. So it goes on all through life; in times of joy, and times of grief, flowers will bring messages of goodwill and hope into our lives.

And how old and young alike welcome the first flowers of Spring, and rejoice in the ever recurring miracle of the tiny seeds developing so rapidly until flowers in all their multi-colored varieties turn the long bleak garden into a thing of beauty, and the unattractive bulb produces blooms of exquisite loveliness.

In isolated parts of Canada's great national parks, and in remote parts of this great Dominion as yet unspoiled by man, wild flowers are so beautiful, so plentiful, and in such variety, that one is filled with rapture akin to reverence at the knowledge that so much beauty could be found in one place. It is difficult to realize that there was a time when beautiful flowers grew in profusion all over the park. The thoughtless and excessive gathering of flowers has completely removed many of the most beautiful examples from the easily accessible places where weeds now predominate.

The threatened extinction of the most attractive of our park wild flowers has become a serious problem to the park authorities. The distinction between a flower and a weed is, in a measure, only a question of scarcity or abundance; their desirability depends as a rule on their rarity. The man who could so popularize the dandelion, the stickweed and the thistle, that they would be gathered in preference to the avalanche lily, the columbine and the lady's slipper, would become immensely popular with the park authorities. Unfortunately the gathering of a bouquet of these weeds would create about the same amount of hilarity as the amateur duck hunter proudly displaying his bag of mud hens.

According to the park laws, the man who chops down a lot of beautiful trees merely to hear them crash, and the man who fills his car with wild flowers merely to throw them out withered and useless at the next stop, are both equally guilty, and both are liable to a heavy fine. While ninety-nine out of every hundred tourists would view with satisfaction the arrest and subsequent punishment of the tree chopper, only one out of the same hundred would not consider the flower waster a victim of oppression were the same treatment meted out to him as to the tree chopper. The reason is that flower picking has become a universal habit, which habit on the part of a selfish or greedy individual becomes a nuisance, depriving others of the enjoyment of the flowers which he only appreciates in the getting. A striking contrast is the lover of flowers who sparingly and carefully preserves his specimens for reference, or visits the growing flower many times to study its development.

If the tourist would only realize that the unpicked flower will retain its beauty for days and add greatly to the pleasure of many future tourists, while the picked flowers only lasts a half-hour or so, when it becomes a sorry wreck and is thrown away in disgust to bring no pleasant memories to anyone!

The tourist traffic has become a great asset to Canada. It is a financial asset of hundreds of millions of dollars annually. But it is more than that—it brings tens of thousands of people from other countries who come to know and love Canada. This intermingling of peoples makes for understanding, goodwill, and world peace. But tourists will not flock to barren, weedy wastes, and unattractive countryside. They come to view and enjoy the beauty that is Canada, the grandeur of its scenery, its lakes and rivers, forests and mountains, and its unspoiled natural beauty.

Every flower uprooted and soon thrown away, every blossom thoughtlessly picked instead of being left to bloom and re-seed itself for next year, is a serious depreciation of that great national asset, and an ultimate enormous loss to Canada.

Think it over the next time you are tempted to pick an armful of lovely wild flowers turning some secluded spot along the highway or in a national park into a place of almost breathless beauty.

"Yoh ain't in love is yoh, Andy?"
"Yes, Ah is in love all right—but she can't get no job."

Why Judges Got Grey
Judge (to witness): "Repeat the prisoner's statement to you, exactly in his own words. Now, what did he say?"
Witness: "My Lord, he saith he stole the pig!"
Judge: "Impossible! He couldn't have used the third person."
Witness: "My Lord, there was no third person!"
Judge: "Nonsense? I suppose you mean that he said, 'I stole the pig!'"
Witness (shocked): "Oh, my Lord! he never mentioned your Lordship's name!"

Dust Makes Long Journey

Australian Soil Travelled 2,000 Miles Through Air To New Zealand

One of the most unusual dust journeys on record was that made by many tons of Australian soil which travelled more than 2,000 miles through the air to New Zealand, according to recent reports. The greater part of the journey was over water. In many parts of New Zealand during the first falls, when the dust was brought down by rain, the mixture was referred to as mud rain. Some of it fell on sweaters of players during a football match, and so discolored them that it was difficult to pick out the garments of the different teams. Although not the first dust storm to travel from Australia to New Zealand, the deposit was remarkable both for quantity and the area over which it was recorded.

HEALTH REGAINED

Mother and Daughters Restored Through the Use Of Dr. Williams' Pink Pills

"Contrary to what my friends once thought, I am still living," says Mrs. Norman White, New Canada, N.S., "and I give the credit to Dr. Williams' Pink Pills for Pale People. I was a sufferer for some years. I was weak and run-down; my heart would palpitate violently at the least exertion. I grew so weak that I could not do my housework. I was under a doctor's care, but it did not benefit me. A second doctor was called in, but with no better result. I was told that I was almost bloodless, and I became so weak I was forced to remain in bed. My friends did not believe I could recover. While in this condition a neighbor strongly urged me to try Dr. Williams' Pink Pills. It was like grasping at a straw, but six boxes of this medicine were got for me, and by the time I had taken them I was able to sit up. Another six boxes were sent, and soon I was able to go about, my health steadily improving. I continued the use of the pills until I felt my health fully restored. I still take the pills occasionally as a safeguard. My two daughters, who were suffering with the most beneficial results. The trouble in both cases was the anemia that so often comes with girls entering womanhood. Under the use of this medicine both fully regained health, strength and activity. You can see, therefore, that it is impossible for me to praise Dr. Williams' Pink Pills too highly, and I hope every weak person who may read this will benefit by my experience."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Attended Memorial Service
Representatives of the Canadian Government and the British Legion joined with a number of residents and visiting citizens of the United States, in attending a brief memorial service in the American cemetery at Rockwood, England. Hundreds of U.S. soldiers were buried at Rockwood during the great war.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

Quite In Favor
A canvasser, approaching a lefty-looking navvy, asked him whether he was in favor of returning a certain candidate to Westminster.

The navvy took his pipe out of his mouth, gazed at the canvasser without enthusiasm, and said, "Yus, if that's where he comes from."

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

Using Many Pulpstones.
Over half a million dollars worth of pulpstones are used annually in the 90 Canadian pulp mills.

When women borrow trouble they usually pay back double.

Alberta Town Planning Scheme

Most Progressive Plan To Be Found On the Continent of North America

The most progressive town planning scheme to be found on the entire continent of North America was that recently established by the province of Alberta, H. L. Seymour, C.E., told the members of the Town Planning Institute of Canada at a meeting in Winnipeg.

The laying out of rural parks, picnic grounds, tourist camps and school grounds, of fair grounds and hospital grounds, was all provided for; advice to cities, towns and villages on their planning problems was available; and the service of the board was open to farmers in helping them to lay out homesteads, grouping buildings or installing running water. It was a service extending all over the province, Mr. Seymour said.

All this had been made possible by the support of the people of the province. The inspiration had come from the premier, who, on his visit to England in 1927, saw the beneficial effects of town planning as it is being carried out in the Old Country.

Wheat Pool-Development

Saskatchewan Pool Estimates 175,000,000 Bushels Of Grain Will Be Handled This Season

Combined handlings of wheat and coarse grains by the Saskatchewan Wheat Pool during the 1928-29 crop year will amount to approximately 175,000,000 bushels, according to an estimate presented to delegates in attendance at the semi-annual meeting of the organization at Regina.

A tabulated statement showing the handlings by the pool of various kinds of grains during past years, together with an estimate of the total handling for 1928-29, indicate that this season will far surpass former dealings.

A thorough review of the development of the Saskatchewan Wheat Pool elevator system, however, was given in the report of the board. Delegates were presented with a financial statement, showing the capital position of the organization as to its ability to finance further extensions of the country elevator system.

Largest Gypsum Producer

Nova Scotia is the largest producer of gypsum in Canada followed by New Brunswick, Ontario, Manitoba, and British Columbia.

Start Education Campaign

W.C.T.U. Will Discuss In Sunday Schools Effects Of Alcohol As A Beverage

A national education campaign through the Sunday schools of the Dominion as to the nature and effects of alcohol as a beverage will be conducted by the Women's Christian Temperance Union. It was decided at the third session of the Dominion convention of the union. Mrs. Gordon Wright, London, Ont., was elected president for the next two years, and Mrs. Louise McKinney, Clareholm, Alta., vice-president. Mrs. T. H. Wright, Hazelton, B.C., was chosen national secretary and Mrs. James Mahon, Montreal, national treasurer.

Dust Causes Asthma. Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellogg's Asthma Remedy brings the user to perfect rest. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness.

British Preferential Treatment

Increasing Trade Is Shown With 29 British Countries

Since 1921 there has been an increase of nine British countries which enjoy customs tariff-preferential treatment, while in the same period the number of foreign countries to enter into mutual compacts in this connection rose from 14 to 43. This is shown in a return table in the House of Commons, in which it is also noted that in the fiscal year 1927-28 Canada exported to the 29 British countries enjoying preferential rates \$317,585,982 worth of commodities while in the fiscal year 1928-29 this had increased to the 29 British countries to \$503,864,623.

Minard's Liniment for Rheumatism.

Photographing Canada

During the 1928 season, 92,000 photographs were taken from the air for the use of Dominion Government Services. Copies of these were filed in the office of the Topographical Survey, Department of the Interior. The complete file at the present time contains 254,000 individual prints.

Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.

—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh...delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Packs in sheet form.

Railway Commissioners Asked To Supply Information Regarding Cost Of Hauling Alberta Coal

On behalf of the provinces of Ontario and Alberta, application has been made to the board of railway commissioners for submission by the two transcontinental railways of figures showing the "out of pocket cost" per ton of hauling Alberta coal to Ontario in 1928. Acting for the two provinces, J. Earl Lawson, M.P., of Toronto, Ont., has asked that the information be supplied to the board and a date fixed for a public hearing.

In his application to the board of railway commissioners Mr. Lawson contends the fundamental reason for fixing the temporary freight rate of \$6.75 a ton, from Alberta to Ontario, during the slack seasons, for a three-year period, was to determine after experiment what would be a fair rate for hauling the coal. He takes the stand, for the province, that the first essential is to learn the actual cost of transportation.

The provinces point out an order-in-council was passed in 1928 directing the railways to accept Alberta coal for shipment to Ontario at the temporary rate of \$6.75 a ton, under supervision of the board of railway commissioners. Under this arrangement Alberta coal was brought into eastern Canada last winter.

The provinces allege the cost statements already submitted to the board ignore the "out of pocket cost" and that a relatively higher rate is assigned to coal than the average rate of all traffic moved.

Growing Grapes In West

Grapes and Other Garden Crops Suitable For the Prairies

Native grapes bear bountiful crops of fruit in the province of Manitoba. A large collection of plants brought together at the Morden experimental station are thriving well under cultivation. The seedlings of those that are bearing are being carefully examined from year to year and those that bear the larger and better class of fruit are being selected for their use as a hardy fruit for jelly making and as foundation stock for cross-breeding with good commercial grapes which are lacking in hardiness. In his report of the station for last year, Mr. W. R. Leslie, the superintendent, states that some of the commercial varieties are bearing well. Campbell's Early, a grape of high quality, gave a very heavy crop, but owing to the coolness of the season it did not ripen all of the fruit. Other varieties, such as Beta, Alpha, and Suelter produced crops that matured satisfactorily. This grape is but one of the many fruits being worked with at the Morden station. Cherries, strawberries, raspberries, currants, and Saskatoon are all receiving attention with most interesting results that are recorded in the report, which is obtainable from the Publications Branch of the Department of Agriculture, at Ottawa. Garden vegetables are also receiving special attention. It is encouraging to learn in this report that the citizens of the Prairie Provinces need lack practically nothing in vegetables that are grown with success in other parts of Canada.

Old Gentleman: "How lucky these modern young women are to be able to wear such thin and scanty dresses!"
Young Woman: "At last, Egon has sent me that heavy fur coat, but it is too warm to wear it today."
Der Lustige Sachse, Leipzig.

W. N. U. 1792

Ripens In Ninety Days

New Variety Of Corn Developed In Wisconsin Dodges Frost

Cold, damp springs and early, killing frosts—the extremities of short summers—have been outwitted by Wisconsin crop experimenters who have developed a new variety of corn that ripens in a scant three months.

By avoiding the perversities of weather, the new strain is hailed as a distinct contribution in crop improvement work and seems likely to win a place among the seeds and grains used by farmers of Northern Wisconsin and in States of a similar latitude.

In these sections, where the summers are short, farmers have found it difficult to grow corn that would mature before frost, so that it could be staked and used for feeding poultry and swine. The new strain, called Golden Chippewa because of its golden yellow color, is a flint corn and will yield forty to sixty bushels of shelled corn. It can be planted about June 1 and will mature in ninety days.

E. J. Delwiche, superintendent of the branch experiment station at Sturgeon Bay and Ashland, developed the new variety. A small quantity of the seed is ready for distribution this season, and in another season or so he believes there will be sufficient to meet the needs of the farmers in the northern regions.

Meat Supply Safeguarded

Abattoir Operated Under Provisions Of Meat and Canned Goods Act

Practically all of the meats sold in the better shops of Canada come from abattoirs operated under the provisions of "The Meat and Canned Foods Act," administered by the Department of Agriculture, at Ottawa. There are approximately sixty of these abattoirs, the majority of them being in operation throughout the year. These establishments, erected and equipped so as to ensure the utmost in sanitation, are each provided with a staff of federal inspectors who see to it that only healthy animals are used and thoroughly sound meat turned out. During the past fiscal year there were slaughtered in these abattoirs 1,108,835 cattle, 2,453,704 hogs, and 649,994 sheep.

By Wireless

A dramatic story of how wireless played the major part in the treatment of a fractured elbow and a poisoned wound was recently told by radio authorities at Ottawa. G. Hudson, wireless operator at Hope's Ad-vice, was visited by an injured fur trader. He wirelessed Ottawa and the operator there secured medical advice and radioed it back to Hudson who treated the trader.

Making the Railway Beautiful

1—John Caesar, planner of Canadian Pacific Station Gardens.
2—First Canadian Pacific Station Garden at Markdale, Ont., 1881.

John Caesar, like his great prototype, "came, saw and conquered." When he first started as station agent at Markdale, Ont., back in 1881, it was just a station with the rails running past it. He decided that passengers should sit up and take notice when they passed through his territory, so he started in to landscape garden it. Soon he had a beauty spot where before there had been little to interest the traveller. Canadian Pacific Officials were quick to recognize the value of the work and the Floral Department of the railway was formed. Mr. Caesar was chosen to look after the beautification of the road and he has to his credit a large number of stations throughout Ontario, Quebec, New Brunswick, and Maine.

Since 1871 Mr. Caesar has been drawing pay cheques from railways and possibly has signed more than any other living railroad man. When he retired in 1917 on his agent's pension, he went on to work at landscape gardening and has literally created hundreds of station gardens, some of these real showplaces. "I have received new life from the soil," he says, in reply to compliments on his fresh complexion and alert manner, for he is a man well in the seventies, and he hopes to make many more gardens before he completes his life span.

Reporting Highway Accidents To Be Discussed At Convention Of Canadian Good Roads Association

Ornamental Shrubbery

Lists of Shrubs That Carry Colored Fruits Throughout Winter Months

Many homes in the Prairie Provinces are brilliant with flowering shrubbery at this season of the year. At the experimental station at Morden, Manitoba, many varieties of shrubs as well as herbaceous plants are being cultivated to ascertain their usefulness for the adornment of public parks and private gardens. The lawns of the station are a source of pleasure to the visiting public throughout most of the season, beginning with the opening buds of that sweetly fragrant small shrub Daphne genkwa and of the humble but dainty blue flowers of the Hardy herbaceous bulb Scilla sibirica, until cold weather in autumn causes visits to cease. Indeed the grounds of this station present attractive features throughout the year. Mr. W. R. Leslie, the superintendent of the station, in his report for last year names a number of woody plants that carry colored fruits throughout the whole winter. Among these are the Russian Sandthorn, Native Buffalo Cherry, Colchester, Siberian Crab, Mountain Ash, Sunnash, Japanese and Native Roses, and False Bittersweet. Examples of other shrubs that lend colour in early winter with their distinctive berries and fruits are given in the report as Red Elder, Snowberry, Mahoe, Winter Berry or Native Holly, Japanese Barberry, Sand Cherry, Siberian Almonds, Hope, Clematis, Russian Olive, Grape, and Virginia Creeper. Other plants enhance the winter landscapes with their yellow, red, or purplish barks that are seen in the Viburnums, Linnaea, Cherries, Birches, Silver Berry, Hazels, Elders, and a number of other kinds of shrubs that are hardy and easily grown.

Good Market For Holsteins

Since the beginning of January more than fifteen hundred head of pure bred Holstein cattle have been exported to the United States, according to the Holstein-Friesian Association of Canada, which points out that recently sales have been bringing prices much higher than prevailed some time ago, indicating a general upward trend in the market for good Holsteins.

Student (inspecting Chalk's latest drawings): "Your husband seems to have wonderful imagination."
Mrs. Chalk: "Yes, indeed he often gets the idea that he's the head of the house."

Student (inspecting Chalk's latest drawings): "Your husband seems to have wonderful imagination."
Mrs. Chalk: "Yes, indeed he often gets the idea that he's the head of the house."

The question of the compulsory reporting of highway accidents will claim much attention at the convention of the Canadian Good Roads Association, which is to be held in Charlottetown, P.E.I., on September 17, 18, and 19 next. This problem has often been discussed at various meetings, but heretofore little progress has been made because of the lack of fundamental facts upon which to base an intelligent discussion.

In March of last year, the Province of Quebec put on its statute books a law requiring that every accident on the highway be reported. The results of ten months' operation of this law have been compiled under the direction of Mr. J. Bégin, the Comptroller of Provincial Revenue for Quebec, and summaries are being sent members of the Canadian Good Roads Association for their study.

"The main objects," said Mr. Bégin, are: (1) To ascertain the principal causes of accidents and legislate against them. (2) To find out the drivers causing most accidents and prevent them from driving by suspending or cancelling their driving licenses. (3) To find out the places where obstacles to a clear view have caused accidents.

"We required a number of persons to report accidents as follows: The owner, chauffeur or operator of a motor vehicle; the police officer who had knowledge of the accident or who was informed of it; the insurer who was notified of the accident; the tramway or railway company, in case of a collision of their cars.

"While all these were to report, we devised a simple system to prevent a duplication of the figures, and in this connection I might say that last year we had 7,462 reports on 5,865 accidents. All the compilation was done by no more than four employees. We required the reports to give date, details about vehicle involved, place, particulars on the place, obstruction, probable cause of accident, damage and so on.

"We found out some extraordinary facts. For instance, in Quebec the proportion of automobile accidents to automobile registrations is 3.90 per cent., or one accident to each 25 motor cars. The negligence of the driver is the cause of 54.85 per cent. of our accidents. Not less than 52.62 per cent. of our accidents occurred in intersections, and 47.30 per cent. at other places on the highways or streets. The bad habit of passing the car ahead without having a clear view was the cause of 8.55 per cent. of our accidents. Peculiar as it may seem, very few accidents were caused by obstruction to the view of the driver, because drivers are usually careful where a clear view cannot be obtained at intersections and other places.

After our one year's experience, we are well satisfied with our law. However, I should point out that we have been careful not to clutter our files with too much information. We have a printed form of report which covers only the essential points.

Lady: You're the oldest inhabitant of the village, I suppose?
Ancient: Yes, I be, mum, but mind yer, I ain't always been.

London is the greatest port in the world, judged by any standard.

"Children, what are you doing?"
"We are playing at aerodynamics, and can't get the propeller to sound right."
—Nagels Lustige Welt, Berlin.

If the organized system of cattle rustling by truck is not checked immediately, Saskatchewan ranchers and stockmen of the entire west will be great losers, according to delegates in attendance at the seventeenth annual convention of the Saskatchewan Stock Growers' Association, at Swift Current.

**DO NOT NEGLECT
YOUR LITTLE ONES**

W. N. U. 1792

She was first elected to Parliament by Northampton, which she represented in 1923-24. She has served a thorough apprenticeship for her present Cabinet position, having been parliamentary secretary to the Ministry of Labor in the MacDonald Government in 1924. She was the successful parliamentary candidate in Wallsend in 1926.

"This finely suggests that the operation of man is indispensable for the adequate reception of a message from God. The roll is a gift of God but the man has to eat it. The message is, we may say, supernatural communicated, but it has to be appropriated and assimilated. The man has to make the gift of God his own."—J. E. McFadden.

A much larger entry list is expected for the Western Canada Amateur Championship which will be played over the Jasper course at the same time. This event is open to players with a registered handicap of 16 or less. Entries for this event should be in the hands of Innes Mackenzie, Winnipeg, secretary of the Western Canada Golf Association, not later than August 14, though in special circumstances post entries will be accepted at Jasper.

The Captain—"I hear you arrested Buffalo Mike and then let him go."
The Patrolman—"That's not so. I had the wrong man. He showed me conclusively that he wasn't from Buffalo. He'd just come from Troy."

"The poor we have ever with us.
"Yes; and aren't their flivvers
nuisance?"

Mexican Jumping Bean

so because of a little worm inside which coils itself and lets itself go like a catapult, carrying its house along with it. The worm lives in the bean all the time, and if a hole is made in the shell, it fills it up again.

Teachers in schools throughout the west may secure copies of this "Hymn Of Gratitude" in its original form by writing to the composer, Mr. W. E. Dyer, 4 Fairlawn Avenue, Toronto, and enclosing postage to cover the cost of mailing.

The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dog stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and install. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, horse barns, plant coverings and greenhouses. It keeps out color and will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. **WINDOLITE** is supplied in rolls any length but in one width of 80 inches only. Several years of glass and improved thickness, weigh about 135 to 140 lbs. The improved **WINDOLITE** requires

Price \$1.50 per Square Yard, I.O.B., Toronto.

MAY RESUME TRADE RELATIONS WITH MOSCOW

London, England.—One of the first acts of the new Labor government has been to cable the announcement to all the Dominion governments of the British Empire that Great Britain intends to resume diplomatic relations with Soviet Russia in the near future.

Political observers believe the Labor ministry's move will receive sufficient support from Conservative and Liberal members of Parliament to assure approval of British diplomatic relations with Moscow.

It has long been known the Labor party was in favor of renewing diplomatic and trade relations with Russia, broken off by the raid on Arcos House, London, headquarters of the Russian commercial mission, made by the late Conservative government in May, 1927.

Although His Majesty's government is not technically dependent on approval of its new Russian policy by the Dominions, the co-operation of other parts of the British Empire is ardently desired in London. Well-informed persons think resumption of relations with Russia will be proposed in the King's Speech from the Throne, July 2, which will announce the program of the government.

It is thought the government may count on support from both opposition parties, since the leaders of the Liberal party severely criticized the Baldwin government for its break with Russia. Among many young members of the Conservative party there is strong sentiment for getting on normal terms with Russia.

Crop Conditions Good

But Not Up To Last Year Says C.N. Official

Montreal.—Crop conditions throughout Western Canada, although excellent in certain districts, are not generally as promising as at this time last year, stated Dr. W. J. Black, director of colonization and agriculture of the Canadian National Railways, who has returned from an official tour of the west. Notwithstanding this, however, conditions generally are more prosperous than for some years in Western cities, said Dr. Black.

There is a tremendous area under cultivation this year throughout the entire Peace River country and land settlement has been going forward there at an enormous rate. Settlers have even gone in large numbers as far northwest as the Fort St. John district and they appear generally to be a fine lot of people.

Posthumous Award For Bravery

Rome.—The gold medal for bravery was conferred posthumously on Dr. Finn Malmgren, noted Swedish scientist, who died while attempting to summon aid after the Polar dirigible Italia crashed in the Arctic a year ago. The government assigned the scientist's mother, who lives in Sweden, a pension of \$500 yearly and sent her documents gathered by an official investigating commission and paying glowing tribute to Malmgren's heroism.

Scores Killed By Storm

Belgrade, Jugoslavia.—Press despatches from Jugoslavia point tell of more than 100 persons killed in the last fortnight by violent recurring lightning storms. Thousands of cattle have been carried away by floods with immense damage to orchards and vineyards.

For Crippled Children

Geneva, Switzerland.—A world conference of workers for crippled children, to be attended by public officials, scientific men and social workers, will be held here July 28 to August 2.

Riel Veteran Dead

Winnipeg.—A participant in both Riel rebellions, George Buchanan, 82, who came to the West as a member of the Red River expedition under Sir Garnet Wolseley, is dead at his home here.

W. N. U. 1792

To Find Solution Of Naval Problem

Premier MacDonald Is Very Hopeful Of Ultimate Outcome

London, England.—Premier Ramsay MacDonald made known he hoped before many days it would be possible to make definite announcement of how naval disarmament negotiations were to be conducted, where a conference would be held, and the precise objects of that conference.

He was speaking at a Labor reception held at the Friends' Meeting House, in Euston Road. At the same time he disclosed that he had had a second conversation with General Charles G. Dawes, new United States ambassador to Great Britain, and had seen Hugh S. Gibson, United States ambassador to Belgium, who arrived in London to assist General Dawes in finding a solution to what has been termed the out-standing issue between the two English-speaking peoples.

Premier MacDonald, while very brief, was extremely hopeful. After he referred to the great political victory Labor had won and the general position of his government, remarking that there would be no miracles and no magic, but a sincere determination and courage to face public questions, he plunged immediately into his revision.

"We have allowed no grass to grow under our feet. We have already started conversations with the United States.

"I am not a prophet, and am not going to pose as one able to prophesy. I am convinced of this, that the obstacles that have been in the way of an understanding have been created, if I may ring the changes on one English word, by a lack of understanding of each other. The great thing which is wanted in the world today is capacity of different peoples, different races and different nations, to put themselves in each other's shoes. That will be one of the things that we shall try to do in the conduct of these negotiations."

Wins Hungarian Derby

Horse Sold For Seventy Dollars Captures Coveted Prize

Budapest, Hungary.—Condemned and sold a few months ago by his former owner for \$70 because he considered him "fit only for the plough," a three-year-old horse named Rabalo walked off with the Hungarian National Derby and a \$10,000 prize against a field of 21 of the country's thoroughbreds.

When Rabalo's old master consigned him to the farm he was bought by a local tavern-keeper, who found him too short to hitch to a cart. He turned him over to a friend, who, after a few months' training, prepared him to race again, the action culminating when he assumed the proudest place on the Hungarian turf.

Used Primitive Methods

Port Arthur, Ont.—Throwing a stone at a big bear which he had surprised in the act of robbing his catch of pike, Paul John, Indian trapper, saw the stone strike and stun the animal. He then rushed at the animal with a hunting knife, and, burying it in the bear's throat, killed it.

Market Commissioner

Victoria.—The Hon. T. G. Coventry, former M.L.A. for Saanich, and son of the Earl of Coventry, has been made market commissioner in London, for the British Columbia Government, it is understood. His main business will be to build up the demand for Okanagan fruit.

The King Making Good Recovery

London, England.—"I can give you complete assurance that the King is making a very fine recovery," said the Prince of Wales in a brief speech at the annual banquet of the British Empire Service League. The Prince presided at the banquet.

Population Decreases

London, England.—England and Wales have decreased in population by 44,112 persons in the first quarter of this year which, when compared to an increase of 31,611 persons for the same period of 1928, is causing some alarm.

U.S. ENVOY TO BRITAIN

General Charles G. Dawes, new U.S. envoy to Great Britain, who discussed the question of naval disarmament with Premier MacDonald.

Rum Running Wanes

Significant Drop In the Export Of Liquor Is Reported

Windsor, Ont.—Canadian customs returns for the current month should show a significant drop in the exports of liquor from the Essex border docks, according to reports of the United States authorities.

Imports at the one-time notorious liquor receiving depot of Ecorse have been cut to a fraction, according to customs patrols, while the occasional rum boat on the American side of the Detroit river is more or less of an oddity these nights, they say.

Considerable liquor, however, is getting through below Ecorse on the Trenton front, guarded by the greyhounds of the "dry" navy, the United States coast-guard cutters. The rum boats are shooting out from Amherstburg into the lake and there are no government boats in adequate numbers to stem the tide.

But this situation is to be remedied according to plans announced. More than fifty boats of all descriptions are to be in service by July 1, it was reported, ranging in type from launches to the 70-foot speed boats, carrying one-pound guns and useful for long chases.

Declares Stresemann Failure

German Foreign Minister Faced By Non-Confidence Vote

Berlin.—Dr. Gustave Stresemann, German Foreign Minister, in a vigorous reply to severe Nationalist criticism, told the Reichstag Germany would not stand for the installation of a commission in the Rhineland as the price of its evacuation.

When the debate was finished for the day the Nationalists introduced a motion of no confidence against the Foreign Minister, declaring his five years in that post had been a failure.

Stockmen Protest Against Land Sales

Grazing Leases Said To Be Unsatisfactory To Cattle Men

Swift Current.—As a result of the Saskatchewan Stock Growers' Association Convention, held in this city, the stockmen of the province are taking action in several matters of importance to the ranching industry.

The school lands grazing leases are anything but satisfactory to the cattle men, it being contended that government regulations regarding such leases have been changing so frequently that ranchers do not know where they stand in the matter from year to year, the latest action being the offering for sale of school lands used for grazing.

The Dominion Department of Agriculture is being asked to make a survey of the Dominion to ascertain the most suitable districts for winter feeding in the interest of the stock-raising industry.

Damage By Storm Cannot Be Computed

Cost Of Semi-Tornado In Montreal District Will Run Into Millions

Montreal.—The full story of the electrical storm and semi-tornado which swept down from the north spreading death and destruction in its path from the Laurentians to the eastern townships, remains to be written.

The death toll stood at seven but news from the Laurentian district north of Montreal was only fragmentary owing to continued disorganization of communication lines.

Total damage caused by the storm will never be completely computed, but it is extensive and probably runs well into the millions. \$1,000,000 worth of damage alone having resulted when lightning set fire to the Sacred Heart convent at Saul au Recollet, near here, and completely destroyed that widely known educational institution.

Oldest Odd Fellow Dead

Andrew Wickett, Vancouver, Was Member For Sixty-Five Years

Vancouver.—Andrew Wickett, aged 92, a member of the Independent Order of Odd Fellows for more than 65 years, and said to be the oldest member of that order, is dead here. Mr. Wickett was born in Ontario and became a member of Aylmer Lodge No. 90, I.O.O.F., Aylmer, Ont. As a young man, and to his death, he retained his connection with the lodge. He was a retired lumberman.

Hail In South Africa

Durban, Natal, South Africa.—The most destructive hail-storm in this city's history occurred here causing intense damage which some estimated at 500,000 pounds sterling, about \$2,500,000. A few minutes after the hail started, it lay eight inches deep on the streets some of the stones being four inches in diameter.

NEW C.N.R. HOTEL FOR VANCOUVER

The finest hotel on the Pacific coast is now under construction in the heart of Vancouver for the Canadian National Railways. The excavation for the foundations has been completed and the steel contract awarded and work will be pushed vigorously until the hotel is ready.

This fine building, which will occupy a prominent place in the downtown section of the city, will be known as The Canadian National Railways Hotel. It will contain five hundred bedrooms and will be wholly modern in all its facilities. The photograph shows the architect's conception of the new hotel as it will appear when completed.

GRAIN DRYING DETAILS GIVEN TO COMMISSION

Winnipeg.—The suggestion that two standards for grain grading be established—one for grain destined for the eastern seaboard and the other for westbound cargoes, did not receive the approbation of James D. Fraser, chief of the grain inspection department, when counsel for the Saskatchewan Royal Grain Commission asked his opinion of the proposal during the commission's sitting here.

"I don't see how two grading standards can be applied," declared the inspector chief for the western division. "Once the standard is set by the board it must be maintained regardless of its destination."

Technical knowledge of grain drying was given the commission by Dr. Wm. F. Geddes, professor of agricultural chemistry at the University of Manitoba, who was a member of the associate committee of national research on grain drying. Declaring that grain can be dried from any state, Dr. Geddes pointed out that according to the conclusions reached by his committee the safest manner in which to dry grain was by a continuous discharge of grain through the dryer. Batch drying, he said, was found not suitable.

On Chief Brown's suggestion that bleached wheat could be tested before sold, Mr. Fraser replied that the only tests which could be made would be those of milling and baking.

To mill and bake wheat for testing purposes would be a great obstruction to the grain movement during the "rush season," he added. The tests would take about two days, he thought.

To convince eastern and overseas buyers that damp wheat, when dried in elevators, is as good value as straight graded wheat of the same grades, Mr. Fraser thought the inspection department would have to be given complete supervision over all grain drying. If the grain is properly heated, the color of kernel would be changed, he told the commission, but not the protein value. He thought that if the inspection department marked heated grain it would be accepted by buyers. The damage to tough and damp grain is all done during the heating process, the commissioners were informed.

Asked if he favored abolition of mixing in all grades, Mr. Fraser would not reply. He thought however, that the prohibition of mixing would materially lessen the labor of his department, though he doubted whether the present uniformity in grades would be upheld.

Canada's Forest Wealth

Will Take Inventory Of Forest Resources As Preliminary To Reforestation Plans

Ottawa.—Federal and provincial governments of the Dominion are co-operating for the purpose of taking an inventory of Canada's forest resources. Today, Hon. Charles Stewart, minister of the interior, opened a conference attended by three provincial ministers, as well as by several federal and provincial officials, which will endeavor to arrive at the actual forest wealth of Canada.

In his brief opening address, Mr. Stewart pointed out the importance of this step as a preliminary to reforestation plans.

Railways Paid Large Sums

Washington.—Canadian railroads took \$40,000,000 in round freight out of the United States in freight charges on United States commodities shipped over Canadian lines in 1928. These figures are contained in a pamphlet on international payments put out by the Department of Commerce. On the other hand, Canadians paid about \$14,000,000 to United States roads for similar transport.

Relieves Water Famine

Hong Kong.—Occasional showers followed by a torrential downpour, are believed to have relieved the worst fears growing out of water famine.

Here and There

(228)

Music hath charms to soothe the
savage breast, and jazz has now
exercised its well-known effect on
animals, since the deer at Banff
have been listening to the dance
strains from the orchestra at the
Banff Springs Hotel. Three mule
deer were seen to other night lis-
tening with astonished ears to the
syncopation within. Both deer and
silk are unusually tame this season
and guests are going hunting with
cameras in lieu of firearms.

Aviation is coming into its own
in Canada and Canadians are be-
coming thoroughly alarmed. Three
airports were opened early in
June at Ottawa, Kingston, and
Hamilton, at which great assem-
blages of planes took place and
large crowds witnessed the pro-
ceedings. Many took advantage
of the opportunity to send mail and
parcels by air express during these
functions and the Canadian Pacific
Express Company used the planes to
advantage.

Richard Barthelmess, moving pic-
ture star, accompanied by his 16e,
made a three-day honeymoon stay
at Banff Springs Hotel early in
June. He says he will be back in
the Fall to get some big game
hunting in the Canadian Rockies.

Duck dues on parcels from Cher-
bourg are now being used in or-
der from the French Government
and there will be consequently a
great increase in despatch of these
parcels from France to Canada,
according to word recently received
by the Canadian Pacific Express
Company. Prior to this, parcels
from France had to be shipped
from Southampton, causing a loss
of a couple of days' time in reach-
ing Canada.

Loans to harbor boards totalling
nearly \$20,000,000 to be spent on
programmes of extensions and de-
velopments have been approved by
the House of Commons. Of this
amount, ten millions each goes to
Montreal and Vancouver, \$5,000,
000 for Halifax, and balance for
Three Rivers and Chicoutimi, Que-
bec.

The average cash income per
farm house in the Prairie Provinces
was \$2,544, exclusive of the value
of seed, feed, meat, vegetables and
other commodities produced and
retained by the farmer for his own
use, according to the Nor' West
Farmer, Canadian farm journal
published at Winnipeg.

The younger generation, we are
often told, is apt to be left to find
its own way around these days, but
not quite to the extent of the
woman who left her 7-months old
baby asleep in the Windsor Street
Station, Montreal, while she went
shopping in the city. It was taken
to the ladies' waiting room and
cared for. Several hours later the
mother returned and was told of its
whereabouts. It was still sleeping
and she decided to have her supper
before she "disturbed" it.

Wheat from the Prairie Provinces
of Canada is the finest received in
Germany from any country in the
world, according to Johann Lange,
one of the seven German millers
making a tour of the North Ameri-
can wheat-growing and millax
centrals. "Canadian mills are ac-
cording to none, it mills visited in
Winnipeg may be accepted as rep-
resentative of Canadian plants,"
said Mr. Lange. "In operation,
cleanliness and the beauty of the
floor turned out we have seen
nothing better since we arrived on
this continent."

Closing 1928 Pool

Closing of the 1928 Wheat
Pool has been set for July
15, which is the cut off date.
All who have wheat to de-
liver should take it to the el-
evators before this date. This
applies to deliveries on wagon
load basis and car lots that
are being billed.

BABY'S OWN SOAP

Best for Baby SOAP for Baby

The Singing Fool

By HUBERT DAIL

Copyright, 1929, Warner Bros. Pictures, Inc.

SYNOPSIS

As gray dawn creeps over the New York skyscrapers, Marcus, the famous revue producer, is leaving the fashionable Plaza night club with a party of four. An actress companion suggests that they go to Blackie Joe's club, where the "fun is just starting," and Marcus consents. At Blackie's shabby club the newcomers are seated at a "ring-side table" by Al Stone, Blackie's head singing waiter and comedian, who wonders who they are. Grace, the pretty cigarette girl, catches the name "Marcus," and hopes the celebrated producer will do something to help Al, whom she admires tremendously.

CHAPTER II

As Al hurried toward the door leading to the bar, Grace speculated as to whether she could cut across and intercept him. But he was moving too fast and there were too many tables in between. She decided to wait until he returned, then she would drop a word as to Marcus' identity. It was necessary for Al to know that, so he could put everything possible into the comic songs he would sing in a few moments.

Grace's sensitive young face was a study in devotion. Al Stone had been her best friend at Blackie's place. When she had taken the job of cigarette girl a few months before, the crowds, waiters, bar-tenders and performers frightened her, the rough-and-ready atmosphere of the place made her unkindly draw into herself. Then it was that "Al had put his hand kindly on her shoulder and looked down into her appreciative brown eyes."

"Don't be scared, kid. Everybody's all right here." Two minutes later, Al had forgotten his words, but Grace treasured them and knew them by heart. She had promptly fallen in love with him. Al did not know this, no one knew it, not even Grace herself. She merely knew that the dark, gentle eyes of the young, singing waiter had a quality she had never seen in the eyes of another man.

Now he was obscured for a moment as a chorus of dancing girls tripped across the floor. The chorus was agile, but that was all you could say. They were neither graceful nor beautiful.

Marcus, the producer, the connoisseur of femininity, the despot who picked only the loveliest girls for his revues and rehearsed them for months until they were step-perfect—Marcus made no attempt to hide his disdain at this apology for entertainment. Grace saw him turn to the pretty actress at his table with a bored look that said only too plainly: "So this is what you brought me to see!"

Then Grace heard a voice behind her, a rough masculine voice.

"Hey, cigarette girl, come here."

She swung about and carried her heaping tray of cigars and cigarettes to a nearby table. Three men, bleary-eyed and uncertain of speech, looked up into her face.

"Want some—cig—cigarettes," said one of them.

Grace lowered her tray for this patron to make a selection and, as she did so, became aware that one of his companions had drawn his chair closer to her.

"Say, you're a nice kid," suggested the second man, with a rapid expression on his face. "Do you know you're cute. I been watchin' you."

Grace smiled faintly, but ignored him otherwise, while she passed out the cigarettes to the first customer. That was what Blackie and Al had told her to do when the patrons became personal in their remarks—say nothing and attend to business.

As she leaned across the table to hand another pack of cigarettes to the third man of the party her skirts rose a trifle. Without looking she knew that one of the customers was looking her up and down. Then suddenly she felt her other hand in his tightening grasp.

She straightened up sharply and tried to draw away. She knew she mustn't make a scene, for, after all, she was only a night club cigarette girl, and the customers must be humored a little.

At this moment, Al Stone, just about to turn the corner to the door leading to the bar, shot a glance across the room and visualized his predicament in a flash. In a moment he had veered across, while Grace gazed beseechingly into the drunken man's eyes and murmured, "Please let go."

Then Al loomed at her side and stopped sharply on the man's foot. A cry of protest came from the customer and he released Grace to seize his aching toe. The girl caught Al's signal and made good her escape, while the three unsteady Don Juans stared up in bewilderment at Al's broad grin.

"Why did you step on my foot?"

"Did I do that? I'm sorry."

Again the broad, but guileless grin from Al. Then he moved off, swiftly as he had come.

But now he felt a hand lightly on his sleeve and looked down into Grace's wistful eyes.

"Thank you, Al," she murmured. The waiter patted her on the shoulder. "That's all right, Grace. Those things will happen. If they bother you again let me know."

Al glanced down at the diminutive Grace and his handsome face softened, as it always did when he reassured her. But in the tenderness of her dark eyes he saw only the gratitude of someone he considered merely a sweet child. To him the marked evidence of acceleration in her breathing and the faint tremor of her warm and lovely little mouth were only her reactions to fright. Nor did he see her head turn, as he moved away, while her eyes followed him adoringly.

Not until he disappeared and the throb of her heart swung back to normal did Grace recall that she had a message for him.

But when the singing waiter reappeared with his four beers on a tray he did not head-straight across the big room. Instead he paused in the barroom entrance and glance down a corridor. Through an open doorway he saw a good-looking blonde girl, a few years older than Grace, seated before a mirror in a tiny dressing room. She was studying her reflection in a self-satisfied way as she slowly and rhythmically brushed her lustrous golden hair. This was Molly Winn, the ballad singer at Blackie Joe's.

Why go to Peru?

When crude oil is so plentifully available here in North America, why does Imperial Oil Limited go 4000 miles to Peru for the crude from which Marvelube is made?

It is because Peruvian crude has lubrication properties which make it particularly desirable as a base for a superior motor oil.

That is why Marvelube is giving aircraft operators longer periods between engine overhauls and a greater margin of safety.

Marvelube meets the needs of the modern high-speed motor, in the air or on the road, because its carbon-free and heat-resisting superiorities are created by Nature herself.

Let Marvelube give you the benefits of better lubrication. There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. See the Marvelube Chart at Imperial Oil dealers and service stations.

Marvelube

From far Peru comes a better crude to make a better motor oil.

IMPERIAL OIL LIMITED
EVERYWHERE IN CANADA

Al moved slowly toward the door as if drawn by a magnet, forgetting his order for a moment. His eyes lit up at the sight of Molly and with fascinated gaze he watched her white, rounded, raised arms protruding from her pink silk dressing gown as she slowly manipulated the hair brush.

Molly was undoubtedly a pretty girl and one of the favorites at Blackie Joe's. Yet there was a hardness about her eyes and a petulance discernible at the corners of her mouth that boded no good for the man who would fall in love with her. Al, however, was blind to these defects.

As he neared her dressing room door she saw him, gave him one indifferent glance, then turned to the mirror again to rouge her shapely lips. At that moment of studying her reflection Molly, the heart-song specialist, was gazing at the person she loved best!

(To Be Continued.)

For Both House and Stable.—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Electric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

Small But Efficient

A small electrical instrument, four inches across and not seven inches high, will, it is claimed, detect an escape of only 1/4 per cent. of gas in any tunnel or inspection chamber. When the escape occurs this instrument warns the nearest telephone exchange.

Fishermen

Take Minard's ointment to relieve irritation of the scales of the fish. Also good for cuts and bruises.

Service For 'Plane Passengers

May Receive Market Reports and Musical Programs Is Prediction

Aeroplane passengers of the future may expect to listen regularly to market reports, baseball scores, and musical programs, if the prediction of W. P. McCracken, Jr., of Cleveland, assistant secretary of commerce for aeronautics, comes true.

"These programs could be tuned in right now, for that matter," McCracken indicates. "In favorable weather the pilot of a properly equipped plane has no need of his radio apparatus."

McCracken predicts that great developments will be made along the line of radio transmission from ground to plane and from plane to ground.

Whether the corn be of old or new growth, it must yield to Holloway's Corn Remover.

Bicycle Boats Are Latest

Have Become More Popular Than Swimming Channel

Bicycle-boating across the Channel has replaced swimming in popularity.

Three athletes have already succeeded in crossing, so far this year. The latest was a woman, Miss Almee Pfanner, who pedaled her way over on a nautical bicycle in 9 hrs. 19 mins. She was so worn by the effort that she fainted as she got off her seat.

The bicycles are fitted to two long-pointed pontoons and the pedals are attached to paddlewheel propellers. The see-bikes make about five miles an hour, but currents bother Channel bikers.

Sixteen Planes Cross

The landing of the French monoplane "Yellow Bird" in Spain brought to a total of 16 the number of times the Atlantic Ocean, north and south, has been crossed by heavier-than-air machines. Dirigibles have made the crossing five times.

The Nile and Congo Rivers of Africa have been connected by a motor road.

Farmer's Average Income

Cash Income Per Farm In Prairie Provinces Shows Increase For Last Year

The average cash income per farm home in the Provinces of Manitoba, Saskatchewan, and Alberta last year was \$2,244, exclusive of the value of seed, feed, meat, vegetables and other commodities produced and retained by the farmer for his own requirements, according to the Northwest Farmer. This is an increase of \$75 per home over the previous year.

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

A Short Will

One of the shortest wills ever filed for probate has come to light in Philadelphia. It contains seven words. Joseph Haines and two companions were out hunting when Haines was stricken with a heart attack. On the back of a grocery sales slip he hastily scrawled in pencil, "I do give everything to my wife," and died shortly after. His estate was valued at \$9,000.

Had Diarrhoea Bowels So Active Feared For His Life

Mrs. S. J. Jago, Canobie, N.H., writes:—"My little boy, when three years old, had a severe attack of diarrhoea. The bowels were so active, and he vomited so much, I feared for his life. I tried many medicines, but he was always getting worse. A friend told me of

and after the second dose I saw an improvement. I gave him almost half a bottle and he was completely relieved.

"I have used it for the other children, and my husband and myself. My husband gives it great praise,

and when he goes away from home to work he always takes a bottle with him."

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Illness Kept Her From Work

"I took Lydia E. Pinkham's Vegetable Compound because I was so sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work as I was so run-down and nervous. My friends told me of the Vegetable Compound. I am now sound and well and have gone back to work. I have a good appetite, my color is good and I am in good spirits."—Evelyn Banque, 129 Alma Street, Moncton, New Brunswick.

July First, Stony Plain's Sports Day.

These Sports were under the auspices of Mr Barth's local band, which was given well deserved support. At the Edmonton Beach attracted some, yet a good crowd enjoyed themselves on the grounds during the day, as well as at the Barn dance in the evening.

In the senior baseball, Holborn took first money, and the Walthers League second.

The Juniors of St Matthews won handsly against Stony Plain Public school by a score of 10 to 2.

In the horse show tournament, the veterans Dan Brox and Moody Washburn were forced to take second place to Jack Rogers and Jack Salx, both of Sand Hills district.

Basketball was won by Gordon Valley; Walthers League 2d; Stony Plain 2d.

The refreshment booth and coconut sidewalk were well patronized. The following were the winners in the track events:

Broad Jump—L Kimmerly, O Kimmerly.

Half Mile—C Kimmerly, L Kimmerly.

100 Yards—C Kimmerly, L Kimmerly.

Girls under 16—Louise Oppertshausser, Dorothy Becker, Maud Coyas.

Girls under 12—M Coyas, Ethel Rogers, Rose Munroe.

Boys under 16—L Wudel, F Hennig, G Becker.

Boys under 12—A Wudel, H Pailer, G Manning.

Boys under 9—H Moyer, E Miller, E Leeder.

Married Women's race—Mrs Pidgeon, Mrs O Hoffman.

3 legged race, boys—E Hennig, Jac Kulak.

3 legged race, girls—M Michael, D Becker.

Fat mans race—Egan, Becker.

Card of Thanks.

Bandmaster Barth and the members of the Band wish to thank all those who gave donations, and also those who patronized their Sports on Dominion Day.

Stony Plain and District.

IT PAYS TO PAY CASH.

Mr J F Clarke left on Tuesday for Indianapolis, Ind., where his brother lies ill.

There will be a sale of 24 lots in the town of Stony Plain for arrears of taxes. The sale will be held in Town hall Sat. next, July 6.

At the baseball game in Stony Friday evening, the Stock yards played Stony Plain's team. Result Stony 9, Visitors 4. Stony had the visitors goose-egged up to the end of the 6th inning. Henry Treit c. J Miller p.

Edmonton Exhibition.

While agricultural and livestock exhibits receive the first attention of the Edmonton Exhibition association and these will be fully up to standard at the big Fair which opens in Edmonton on July 15, it is the attractive features which are necessary to draw the crowds, and these will be the best ever seen at any Western Canada. The Pageant "Arabian Nights, put on by 1000 men, women and children, will prove popular with patrons. A special feature is the captive balloon, known to those who served overseas as a blimp. This will carry passengers, and every night will depict Niagara Falls in fireworks from 1000 feet in midair.

Spruce Grove News

Mr Joe Miller returned on Monday from a very successful fishing trip.

Tuesday's high wind blew over a number of buildings in this district. The Jasper Highway Amusement hall and T Room collapsed.

Forman's 70-horse road outfit moved from the local Railway yards, where it has been encamped for several weeks, down to Buerlein's Railroad crossing

Holborn Happenings.

The play Too Much Mother-in-Law presented by Warden Doo-Dads here last Friday, was a decided success. A large crowd was in attendance, a majority of whom remained for the dance. Those taking part were Ralph Witherspoon, J Ursel, S Jamison, W & H Washburn, Misses H Wilray, O Jamison, M Liebert. Pal, Miss Wilray's pet collie, played a creditable part. Music was supplied by Meredith's orchestra, of Edmonton. The pleasant weather and the good music combined to make this one of the most delightful of the social events of this season.

A Squabble Among Friends.

A service was held at the Greek Catholic church, north of Carvel, on St. Jean Baptist day, June 24. Father Dedick is said to have had charge of the service. At the close of the service, while Father Dedick and Peter Hassay were leaving the church grounds together, they were met by a party of men and women, who made a hostile demonstration against Mr Hassay. The latter claims several men and a woman struck him on the body with their fists.

A mixed crowd of ladies and gents followed Mr Hassay down the road, pelting him with handfuls of dust and clods of mud, one gent going so far as to try to trip Peter, so the latter claims.

Peter came from Chipman a year ago, and states he had been holding service in the church when a priest was unable to be present. He also held classes for catechumens on Saturdays and summer holidays, instructing the children in Ukrainian language.

Peter's year-term expired June 30, since which time he says threats were made, with the object of getting him to leave the district.

There is a sharp division in the members of this congregation—one party wanting to build a new church in Carvel and the other party wishing to have the service continued in the old building, as formerly.

It is expected fuller details of this unfortunate affair will be available when the matter comes before Magistrate Williams on Tuesday next.

War on Gophers, Crows, etc.

Cash prizes ranging from \$1 to \$200 will be paid by Dept. of Agriculture in various competitions in the campaign for the destruction of gophers, crows and magpies during the present season. Details of the various competitions which have as their object the protection of farm crops and insectivorous and game birds can be secured by addressing the Game Commissioner, Edmonton.

Calendar.

- JULY—
- 4—Town Council meets.
- 4—Dance at Holborn Hall.
- 5—Inga Councilors meet.
- 6—Sale of Stony Plain lands for arrears of taxes.
- 10—Spruce Grove's Annual Picnic
- 15—Closing date of 1928 Wheat Pool.

Carvel Clippings

A particularly good piece of road work is being done on the road north of town to the baseline under the supervision of Mat Steely.

A large number of the farmers in the School Districts around here were at the big celebration on the holiday at Edmonton Beach.

It is reported that Miss Shandro will continue her duties as teacher at the local school, after holidays.

R. C. services will be held here Sunday next.

Here and There

(229) New style bucket seats for first class coaches on Canadian Pacific day fast trains have been introduced on regular trains of the company and are proving very popular. The seats are upholstered in a cool moquette material and are provided on their backs with coat rail, umbrella stand and check holder for the convenience of passengers.

The stork recently visited Canadian Pacific train No. 51 between Langkan and Saskatoon and left a daughter to Mr. J. K. Alexander on her way with her husband to settle on a farm near Edmonton. Miss Alexander, government conductor of the immigration department at Quebec, was on the train. She secured a first aid kit from the conductor and took charge of the case. Mother and daughter are doing well.

Sixth annual trail ride in the Canadian Rockies will start from Banff August 1, and end a few days later at Castle Mountain. Banff, Calgary, Spruce, glacier-fed lakes are on the route which will form half of the long desired High Line trail from Banff to Lake Louise. The second half will also skirt several glacial lakes. About August 8 the long distance trail ride from Lake Louise to the Columbia Icefield will make a start. This icefield covers the largest and most spectacular body of ice left on the North American continent surrounded by peaks as high as 12,000 feet. The second trail ride will take nearly three weeks.

The only golf trophy offered on the continent of America by His Royal Highness, the Prince of Wales Cup, presented to the Banff Spring Golf Club for annual competition by bona fide amateurs on the course there, will be among the outstanding prizes of gold when members of the "Canadian Golfer" tour special train which is crossing Canada from Toronto to Victoria and back this summer, arrive at Banff early in September.

"Scotland and Glasgow are proud of Canada for the part she is playing in trans-Atlantic shipping," said T. L. Duff, well-known shipowner and broker, when interviewed at Banff recently. "The building of a ship directly employs about 5,000 craftsmen on the Clyde," he added, "and the supplying of the materials and fittings required in construction indirectly benefit industries throughout Scotland." Mr. Duff said that Scots felt that the Canadian Pacific whose recent ship orders had done so much for Scottish industry, was as much Scotch as Canadian, the founders having been of Scottish descent and so many of the ships of Scottish construction.

During the past five months all milk production records at Strathmore farms have been broken. Strathmore Sylvia in the mature class by producing 29,371 pounds of milk. In the young mature class record up 4,821 pounds. In the four-year-old class Strathmore Beatrix Sylvia entered the former farm record by 3,148 pounds with a production of 23,830 pounds. Strathmore Lora Sylvia, in the three-year-old class, finished on February 22nd, 1929, with 23,568 pounds of milk or 3,568 pounds more than the former record. To Francis, in the two-year-old class, however, belongs the premier honors—the broke the farm record of 5,315 pounds. Although only a two-year-old when placed on test, she produced 23,922 pounds of milk, which was sold to the Union Milk Company for \$544.65. Her calf, now one year old, is priced at \$400.

An Army of Cordon Bleu Chefs

An army, said Napoleon, marches on its stomach, but a hotel prospers as much as anything on its food. These are the men at the Royal York Hotel who are responsible for the good cheer at that famous hostelry which was opened last week by the Governor-General with a distinguished company of prominent Canadians including the president and directors of the Canadian Pacific Railway, the premier of Ontario and many others. These chefs command an army of 175 culinary experts and indirectly another army of 300 waiters. They are from left to right: E. Argence, party chef; R. Albertella, assistant chef; J. Cherrier, head chef; J. Aublard, assistant chef; W. Thonfeld, banquet chef; and P. Raaberg, grill chef.

Ford

Do You Know?--

- That no automobile except Ford selling for less than \$1500.00 has triplex shatterproof glass windshield as standard equipment?
- That the new Ford Car has 25 ball and roller bearings in the chassis?
- That when the new Ford is travelling at 50 miles per hour, the revolutions per minute of the motor is only 2077?
- That the new Ford stands out supreme in its field in mechanical design, specifications, equipment, quality, and precision workmanship?
